

A blank set of axes, in one quadrant, with labels:

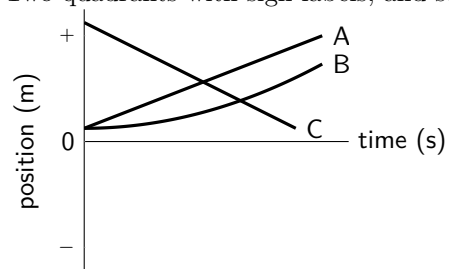

Two quadrants, with a graph:

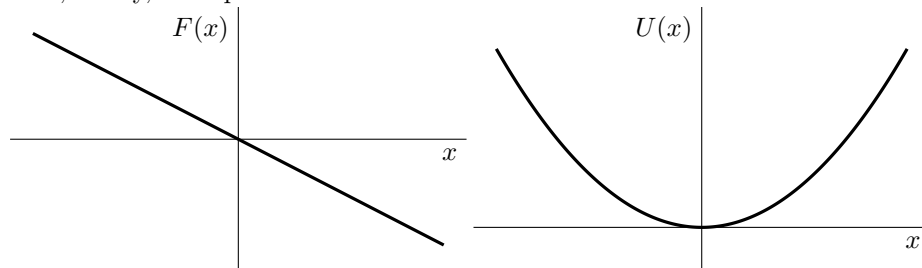

With some extra tick marks:

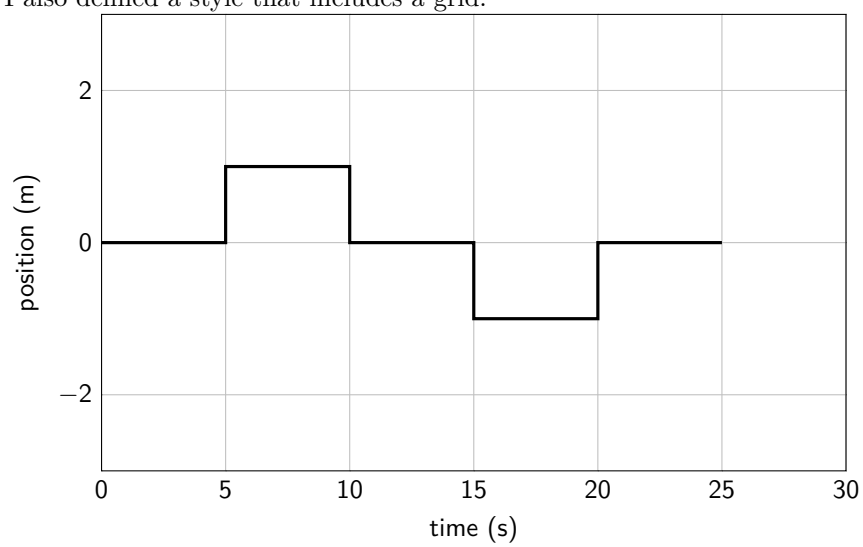

Two quadrants with sign labels, and several labeled curves:

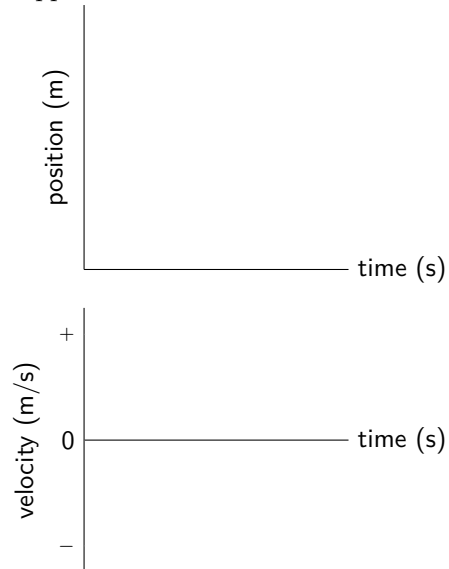

And, finally, four quadrants:

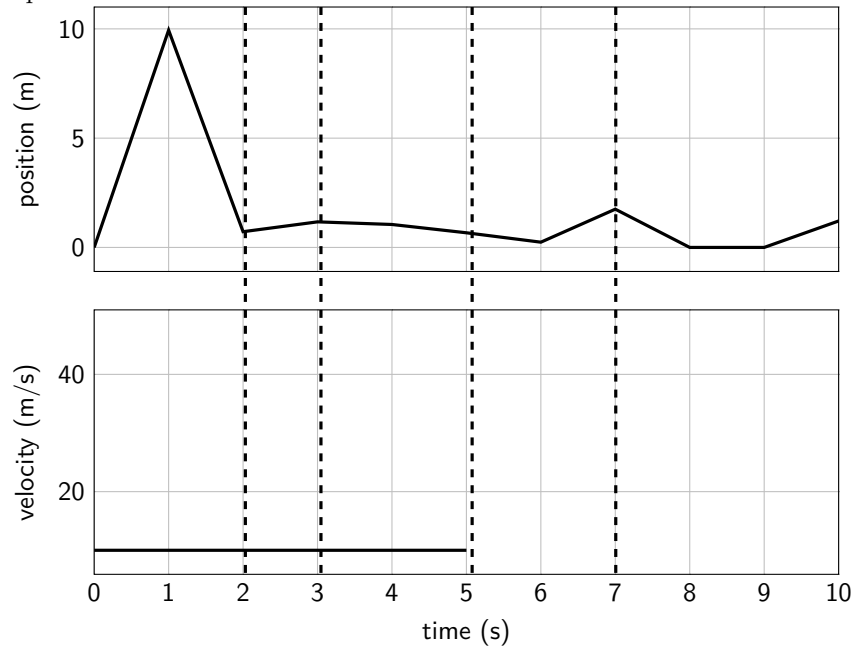

I also defined a style that includes a grid:

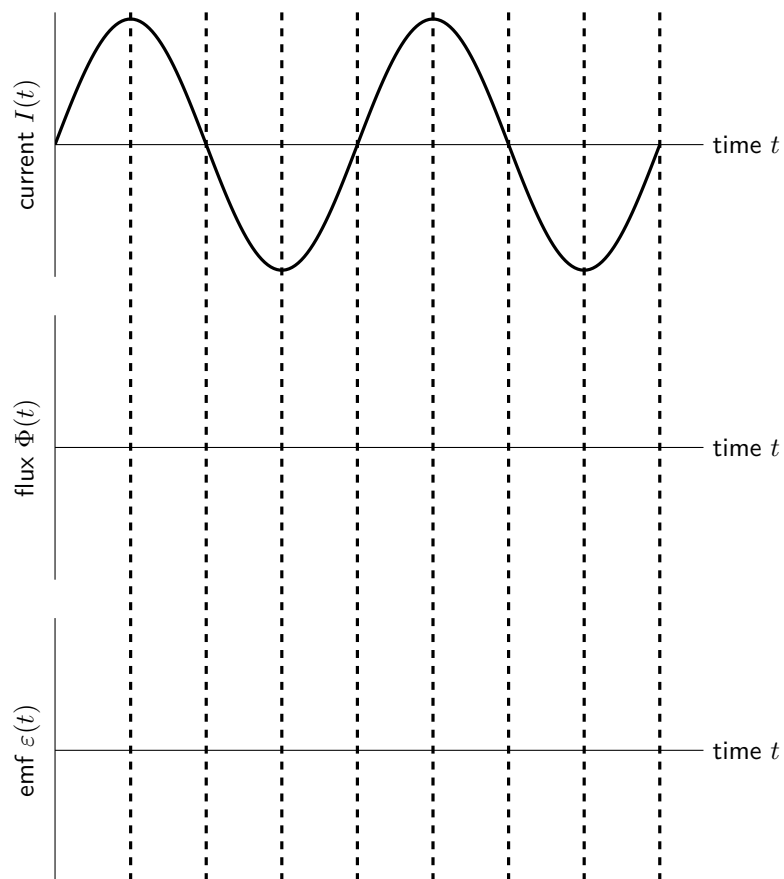

Note that the "groupplot" feature can be used to stack graphs:

Finally, you can drop alignment marks between graphs, as the next two examples show:

(Note in the example just above that the x scale (and the locations of the vertical lines) makes NO sense whatsoever! I have no idea what the hell is wrong here! -MT)
